Bilateral Meetings

- Tuesday 15:00 - 18:00

Description

We are a business support organization located in Mostar (B&H), and we offer business internationalization services through matchmaking opportunities and soft-landing assistance, multidisciplinary trainings in business and technologies (including training centre for CNC technologies for metal processing), rapid prototyping services (3D printing, laser cutting and CNC machining), business acceleration services for start-ups (mentoring, funding, workspace), business networking opportunities through various thematic events and unprecedented business infrastructure with offices, conference rooms and IT infrastructure (optic fiber Internet link and data centre).

Organization Type

Consultant,

Areas of Activities

Intellectual services (engineering, design, consulting)

Offer

Rapid prototyping

We offer 3D printing, laser cutting and CNC machining as core technologies for prototyping. Furthermore, we offer design and consulting services for product and tools development.

Offer

Business infrastructure

We offer excellent business infrastructure i.e. offices and conference/meeting rooms accompanied with IT infrastructure (optic fiber Internet link and data centre) and multimedia equipment (projectors, sound system and large format TV sets).

We already host 20+ companies from ICT, engineering, design and marketing sectors.
